Overview

The **Certified Internal Auditor** (CIA) training programme is designed to meet the needs of the professional who wishes to pursue the world's premier certification in Internal Auditing

Giving value in all aspects of an Organization, a CIA can come not only from an accounting background.

CIA candidates are required to complete 24 months of internal auditing experience or its equivalent (which means experience in audit/assessment disciplines, such as external auditing, quality assurance, etc.).

Related business professions (such as accounting, law and finance) can be substituted for one year of experience, but candidates will not be certified until the experience requirement has been fully met.

Candidates are required to complete the program certification process within a maximum three years from application approval.

If a candidate has not completed the certification process within three years, all fees and exam parts will be forfeited.

Part 1 – Essentials of Internal Auditing

125 questions | 2.5 hours (150 minutes)

The CIA exam Part 1 is well aligned with The IIA's International Professional Practices Framework (IPPF) and includes six domains covering the foundation of internal auditing; independence and objectivity; proficiency and due professional care; quality assurance and improvement programs; governance, risk management, and control; and fraud risk. Part one tests candidates' knowledge, skills, and abilities related to the International Standards for the Professional Practice of Internal Auditing, particularly the Attribute Standards (series 1000, 1100, 1200, and 1300) as well as Performance Standard 2100.

Part 2 – Practice of Internal Auditing

100 questions | 2.0 hours (120 minutes)

The CIA exam Part 2 includes four domains focused on managing the internal audit activity, planning the engagement, performing the engagement, and communicating engagement results and monitoring progress. Part 2 tests candidates' knowledge, skills, and abilities particularly related to Performance Standards (series 2000, 2200, 2300, 2400, 2500, and 2600) and current internal audit practices.

Part 3 – Business Knowledge for Internal Auditing

100 questions | 2.0 hours (120 minutes)

The CIA exam Part 3 includes four domains focused on business acumen, information security, information technology, and financial management. Part Three is designed to test candidates' knowledge, skills, and abilities, particularly as they relate to these core business concepts.

Lecturers

Vasilis Monogios

Vassilis has significant experience in the areas of Professional Services. He is the founder and managing partner of AMiD, a company specializing in corporate Governance, risk, compliance and internal audit services. In the past he has worked with Grant Thornton Greece (Partner, Assurance & Advisory) and Eurobank (Group Internal Audit).

He holds the professional certifications of CPA (SOEL), CIA, CRMA and COSO IC. He also holds B.Sc. in Business Administration (University of Piraeus, Greece).

His professional experience derives from a number of audit and consulting projects, both in the private and public sector, in areas such as: corporate governance, internal audit, internal control system, risk management, reorganization, improvement of corporate processes and corporate reporting (financial reports under IFRS and non-financial reports under GRI standards and Integrated Reporting Framework).

He has a notable lecturing, research and writing activity, on the above areas, in Greece and abroad. He is lecturing on CIA preparation courses continuously from 2007, all with GlobalTraining.

Gavriel Vaikousis

With over two decades of experience in the field of Information Technology, I have participated in major projects regarding most of the top applications and solutions of the market.

GDPR, ISO 27001, Cybersecurity, IT Audits, Business Continuity, ERP and MIS implementations are projects of the last couple of years. Future professional goal is to continue to offer advisory services in the field of IT and Risk Management.

Have managed IT audit and Cybersecurity services in a portfolio of over 50 listed companies in Athens Stock Exchange. Successfully lead IT Audits, Compliance Audits and IT Security Services in numerous Financial Institutions in Greece. Have hosted IT audit and Cybersecurity services, at several Financial Institutions and Insurance Companies.

Successfully participated in projects regarding Cybersecurity, IT Benchmarking, Business Continuity, BPR, and major Microsoft Dynamics and SAP implementations.

Certifications: Certified Information Systems Auditor (CISA), Certified Information Security Manager (CISM)
