Why Globaltraining

Extensive Experience

We have more than 30 years of successful track record in the training industry. Our reliability and professionalism have been established in delivering relevant and impactful learning experience. This is proven through the strategic collaborations we have with most of the professional financial services firms, the multiple awards that our students and our organisation has obtained during these years but also the success stories of our alumni students who are now leaders not only in Cyprus but worldwide.

Our People - Tutors and Support Staff

Perhaps the most important and distinctive characteristic is our people; from directors to faculty members and student support staff, we all share the same objective; providing you with the most relevant, inspiring, and impactful learning experience. Our tutors have been carefully selected and their priority is not only to get you to pass your exams but also to provide you with insightful information that is vital in your professional and career development since they all have extensive experience in the industry, either in the past or present. You can even mix and match with the blended learning solution to fit each person's need.

Our Strategic Collaborations with Top Employers

By joining our courses, you also are given access to top employers that seek out ACCA-trained professionals. Platinum Providers

ACCA has recognised our work and our courses over the years and as such our learning methods, materials, students' performance, feedback, and success rates are closely monitored by the ACCA. To become a Platinum provider, you need to demonstrate excellence in student expectation and policy, invaluable student experience and seek for continuous improvement. At least 75% of your courses delivered should be exceeding worldwide pass rates over at least two consecutive, combined exam sessions and continuously receive positive student feedback. As such, when we state we have a proven successful track record, this is a fact, backed up by the ACCA and has been the case for an extensive number of years.

Triple ACCA Platinum Learning Provider
The Highest Recognition Awarded by the ACCA

Online Technologies, Infrastructure, and our Approach

In today's world where online technologies have utmost importance in minimizing disruptions, we are proud that we were the only training organisation in Cyprus back in 2020, that had immediately responded to the global pandemic and this is because as leaders in this profession we have proved our resilience and flexibility in adapting to crisis situations.

Through the immediate conversion of our ground-based courses as live online courses, our students did not have any disruption in any way in their studies in preparing for their ACCA exams, whilst at the same time ensuring their health and safety.

Our online technologies ensure smooth running of the courses, whilst keeping the live interaction with the lecturer. Students are always recommended to join the lessons either face to face or live online, but in case they are unable to do so they can access the recorded lectures at a later stage through our customised learning platform which each student has access to for a specified period. This also allows students to have access to further study materials, exam tips which each lecturer uploads on the platform accordingly.
